

1. A client experience

- **What's one client/project you've worked on that you still remember?**
- **What happened?**

2. ERP in real life

- **What's the strangest way you've seen a business manage its day-to-day work?**
- **At what point did you feel they needed a proper system?**

3. Something you disagree with

- **What's one common belief about ERP/software that you completely disagree with?**
- **Why do you disagree with it?**

4. AI

- **Has AI actually changed the way you work?**
- **What's one thing about AI in software that you think people are overhyping?**

5. Your journey

- **What's something you did when you started Dynamic Labz that you definitely wouldn't do today?**
- **What made you change your mind?**

6. You outside the work

- **What's something you genuinely enjoy doing when you're not working?**
- **Is there anything outside work that has influenced the way you think or work?**
